CONDITION OF THE MARKETS

Wheat Opens Strong and a Trifle Higher, but the Advance Is Quickly Lost.

Corn Opens at Higher Prices, but Fail to Advance from the Opening Figures-Oats Firm-Provisions Without Change.

MONEY, BONDS AND STOCKS.

The New York Market Shows Animation at the Opening, but Dullness Follows. NEW YORK, July 9.-Money on call was easy at 1@14 per cent.

Prime mercantile paper, 31 26 per cent. Sterling exchange was dull, but steady, at

\$4.862 for 60-day bills and \$4.881 for demand. The total sales of stocks to-day were 118,619 shares, including the following: Delaware, Lackawanna & Western, 3,029; Lake Shore, 3.275: Louisville & Nashville, 3,000; Missouri Pacific, 6,260; Northwestern, 4,150; Northern Pacific preferred, 7,442; Oregon Transcontinental, 2,500; Reading, 30,908; St. Paul, 20,410; Texas Pacific, 3,445; Union Pacific, 5,700; Western Union, 6,475.

The stock market to-day displayed but little improvement over last week, and while there was some animation in the early trading on the execution of the accumulated orders over Sunday, it soon dropped back into the usual dull and listless state. Fluctuations were, for the most part, confined to the same narrow limits, with the same lack of significance. Only a few of the leading stocks were traded in over a range of more than | per cent., and the final changes are generally for small fractions only. The opening was generally steady at but small fractions different from the closing figures of Saturday. The market was firm to strong for the first half hour. After that the list became somewhat feverish and irregular. This forced prices off to something below the opening figures, and notwithstanding the modest buying of commission people and the foreigners, there was no recovery worth mentioning. grangers were most prominent, and St. Paul led, followed by Western Union, Union Pacific, Missouri Pacific, and Northern Pacific preferred, but there was no marked movement throughout the day. The selling slacked off to-ward the close and a somewhat firmer tone existed for some time, but the close was dull and rather heavy at or near the lowest prices of the day. The result of the day's transactions is to leave the most of the active stocks fractionally lower, but Rock Island lost 13, and Northwest-

The railroad bond market was quite active, Texas Pacific firsts furnishing \$133,000, and the seconds \$334,000 to the day's total of \$1,469,000. Most of the list show fractional gains to-night; Minneapolis & St. Louis firsts rose 2, to 95. Government bonds were dull and steady.

State bonds were dull and steady to firm.

Cheese firm but quiet; Ohio flat, 7 281c. CHICAGO, July 9 .- Wheat started strong on bad weather reports, firm cables and the curb influence. August sold je higher at the open-

ing, at 821c. Other futures opened to higher,

at 82c for September. These were the highest points of the session. A very large part of the business was of a scalping nature. There was some outside business, mostly on the "bull" side, and it struck the market wrong for the day. The selling was partly by "longs," who could let go on the decline and take profits, but there was more "short" selling on the theory that the government figures to-morrow will be bearish. The visible-supply statement cut but little figure, as the decrease was about as expected, 585,000 bu. The weather map showed rain in the present wheat harvest belt, but the influence was balanced by reports from Cairo and other points that wheat was yielding well in quality and quantity from thresher. During the forenoon August declined to 81ic, and for an hour showed a disposition to rally from this point, but half an hour before the close the crowd weakened and the price went off to 81tc, or 1tc under the closing price Saturday. Wheat closed just 1c lower for August, at 814c. The crowd was "long" on corn to-day, and after prices opened higher but failed to advance from the opening figure, there was a larger quantity for sale than usual of late. The decrease in the visible supply was 1,147,000 bushels, but this amount fell far short of what many expected on account of recent movements. The decrease here for the week was 1,170,000 bushels. The liberal out-inspection, the light receipts and the conditions at the close on Saturday caused the better early prices. Sales of July were at 50 c, down to 49 c at the close. August opened at 51 c, and closed at 49 c, or ic under Saturday. Oats ruled firm and the new crop futures advanced sharply. A portion of the improvement was lost later in the day, July declining in sympathy, but closing at Saturday's last quotations. August left off ic higher than

Saturday. An advance in hogs caused a firmer feeling among the holders of product, and early

sales were at slightly higher prices. Later of-ferings exceeded the demand, and a weak feeling

developed, especially in lard, which declined .0710.10c, and closed .050071c lower than on

Saturday. Pork and short-ribs, however, closed steady at .021 2.05c advance. The leading fu-

4,437,194 bu, a decrease of 406,308; rye, 168,557 bu, a decrease of 24,596; barley, 154,174 bu, an increase of 3,069. The Foreign Grain Trade.

LONDON, July 9.-The Mark Lane Express, in its weekly review of the British grain trade. says: "English wheat is steady. In the provincial exchanges from 6d to 1s more is obtained. The sales of English wheat during the past week were 29,289 quarters, at 31s 5d, sgainst 16,737 quarters, at 34s 2d during the corresponding week last year. Foreign wheat is stronger, and buyers are obliged to pay a fraction advance in values. Sellers at Liverpool have obtained an advance of 1d per cental. Flour is firm. Corn in Liverpool is scarce. Spot corn has risen 3d per cental. Linseed is a turn dearer. Calcutta seed, ex-shipment, is quoted at 35s 11d. There were twenty-six arrivals of wheat cargoes; seventeen were sold, twelve were withdrawn and eight remain. At to-day's market wheats were weaker, and last week's advance was barely maintained. Corn was 3d dearer. Oats were 6d dearer.

INDIANAPOLIS MARKETS. A Midsummer Duliness Broods Over the Local Market.

INDIANAPOLIS, July 9.

Trade in all departments was very quiet today. Heavy rains added to the summer dullness, being a check on business in nearly all branches. But so promising are the crops that it is believed that an early and brisk fall trade may be safely anticipated. In most departments the business of the first six months compares very favorably with that of the first half of 1887, and it is believed that the last six months of this year's trade will reach very satisfactory proportions. In prices, too, there were but few changes. Dry goods are firm all along the line, with little doing except in replenishing broken stocks. Druggists are having an excellent trade, and have sold more paints and oils than usual, and hardware men are doing well. Iron dealers are doing less than usual, and the market is not in as settled a condition as is desirable. The bottom has again gone out of the coffee market, and roasted grades go off I cent, green grades ; cent, while sugars, on the other hand, several grades advanced 1 to d cent, and the market closed strong at those quotations. The produce markets were rather quiet to-day. Receipts of fruits, vegetables, etc., were fortunately light, and owing to the

rain the demand was rather limited. But com-

mission men are experiencing much better busi-

ness than at mid-summer in many years past,

and with this good prices have ruled, so that the shipper as well as the commission man have been pleased. The united action of the commission men to get good prices and give this market a good name, has resulted very satis-factorily. Prices on all produce rule about the same as last week, young chickens and eggs being the only articles which are weak at quota-

The local market continues in the stronger position of last week, and prices on most grades of cereals rule firm, the demand being in excess of the supply. Track bids to-day ruled as

A writer to the Rural New Yorker says: potatoes (good, perfect ones) into quarters, and rolling them in land plaster and leaving them in a warm, dry place to dry and sprout, I calculate I increase the germination from one week to ten days and the productiveness very perceptibly. this season I dried them until they seemed almost lifeless, although the sprouts had started -in planting I lacked a few to finish, so I went to the cellar and took some of the same kind that were nicely sprouted—some a half inch long—and finished with these. Those dried showed themselves above ground five days in advance of those freshly cut, and now they look more rank and are of a deeper green color. I have often dried a few seeds so dry that they sounded like sticks falling into the basket, and it was seldom that they failed to give good re-

Professor Forbes, Illinois State Entomologist, makes the following timely suggestions in reference to fighting apple borers: Preventing the laying of eggs is best accomplished by washing the trunk and larger branches of the tree three or four times in summer with a strong solution of soft soap to which has been added a little erude carbolic acid. The soil should be evenly smoothed about the base of the tree, so that the mixture may reach the lower portion of the trunk where the round-headed borer is apt to lay eggs. Washing soda added to the soft soap until the whole is of the consistency of thick paint is also thought to make an excellent wash for the repelling beetles.

A Canada contemporary says that hoven, the result of eating too much green clover in pasture, is easily prevented. Have a good straw-stack accessible to cattle, and they will always eat sufficient of the dry stuff to neutralize the evil effects of clover. If one has no stack, then give a small ration of dry hay or straw each day. If the trouble appears administer to the affected animal as soon as discovered five or six tablespoonfuls of spirits of turpentine. Unless the subject is too far gone to stand, this will
